DETAILED ACTION

Receipt is acknowledged of the election of invention filed February 17, 2006.

Claims 16-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 17, 2006.

Claim Rejections – 35 USC 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-15 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The two statutory classes being claimed are 1. an apparatus and 2. a process of using an apparatus. Applicant is permitted only a single statutory class of invention in a single claim. The claims should be amended to recite either an apparatus or a process.

Claim Rejections – 35 USC 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being confusing, because the claims recite both an apparatus and a process of using an apparatus. Claims are therefore confusing as to what single class of statutory invention is being claimed. It is suggested that one of the statutory classes be deleted.
